

gas clip technologies

Portable gas detectors you can count on

Multi Gas Clip Infrared

The only multi gas detector that can run continuously for 2 months without a recharge due to advanced infrared technology. Infrared sensor is immune to poisoning and detects in inert environments. Features: 6 month calibration cycle, fails to safe, and one button operation. Compatible with the simple to operate MGC Dock or MGC Wall Mount Dock.

Tests for combustible gases (LEL), H₂S, CO and O₂

Also available in pellistor version

Multi Gas Clip Pump Infrared

Durable infrared multi gas detector with an internal sampling pump that can run for 5 days straight on one charge due to low-power photometric technology. Perfect for confined space entry monitoring. Features: infrared sensor that is immune to poisoning and does not require oxygen to detect gas, 75 foot draw, one button operation, calibration every 6 months and fails to safe.

Compatible with MGC Pump Dock & MGC Pump Wall Mount Dock.

Tests for combustible gases (LEL), H₂S, CO and O₂

Also available in pellistor version

Single Gas Clip

Eliminate downtime with our ultra-reliable portable gas detector. It meets all needs with adjustable alarm set points & real-time gas reading capability. Compatible with the industry's easiest to use docking station, the SGC Dock or SGC Wall Mount Dock.

Tests for H₂S, CO or O₂

Single Gas Clip Plus

When this durable detector is not in use, the built-in hibernate mode allows the detector's life clock to be stopped temporarily. There is no minimum hibernation time required in order to extend the detector's life so every minute hibernated is a minute saved. Also compatible with the SGC Dock or SGC Wall Mount Dock.

Tests for H₂S or CO

MGC Dock

Compatible Docking Stations

Test up to 4 detectors in less than a minute saving time and gas.

Snap in and push a button, it's that easy!

These simple to use docking stations feature a built-in gas cylinder compartment, regulator & pressure gauge and a 4 GB USB for quick & efficient calibrating, bump testing, data logging, and programming.

Lithium battery ensures thousands of tests before needing to be recharged, charging cord included. Docks are housed in rugged Pelican cases that go where you need them to go. Wall Mount Docks can be set on a surface or mounted in a convenient location.

Docks and Wall Mount Docks are available for Multi Gas Clip, Multi Gas Clip Pump and Single Gas Clip/Single Gas Clip Plus.

SGC Wall Mount Dock
